

Super Truck

Johnson Industries, the manufacturer of the SuperCar with hundreds of industry-proven units at work in America's business community, is proud to present the Super Truck. Built with the customer in mind, this heavy-duty, battery powered Personnel and/or Burden Carrier is one "Tough Truck".

Compare the Super Truck's standard equipment, 17 mph maximum speed (14 mph loaded), 11 gauge steel body, tubular frame, 400 amp Solid State Controller, and industry-proven components to the competition, and then you'll agree, the Super Truck is destined to become an industry favorite. The Super Truck from Johnson Industries can be used around the world in mining, airports, factories, warehouses, construction, hospitals, or municipalities.
