

## DC Supercar (Underground Personnel Carrier)

The Supercar has been around for 30 years and remains an industry favorite. Built tough and to customer's needs, it can get your workers to whatever outby mining location they need to get to. The Supercar can be 36V or 48V and have a Series or SepEx motor depending on the control, power, and price you need.

With features like automatic hub greasers and tapered roller bearings, the Supercar is a great benefit in a variety of industries. Johnson Industries' Super Car has the durability for the job, and is or can be used around the world in salt mines, coal mines, molybdenum mines, zinc mines, potash mines, gold mines, rock mines.

Featuring a 1200-3000 lb Dana Spicer rear axle, panic switch, and 45-7.2HP separately excited motor, the Supercar from Johnson Industries is a great solution for your industry's personnel carrier needs.
